A must read for
everyone interested in
shifting Europe towards
a union of social justice!

Andreas Bieler, co-author
of *Global Capitalism, Global
War, Global Crisis*

This is a trail-blazing book
in several different ways.
Perhaps most importantly,
it shows how the study of
policies must include conflict
around and protest against
those policies, and their impact
in turn on the policymakers.

Colin Crouch, author of *Post-Democracy*

The book is a bold and fresh
attempt to analyse EU politics
with a commodification—
decommodification
approach rather than the
usual national—EU axis.

Stefano Bartolini, author of
Restructuring Europe

This volume contributes
much to our knowledge
of the threats for
democracy as well as the
potential for resistance.

Donatella della Porta, author of *Social
Movements in Times of Austerity*

The book is key
to understanding
how European
policymaking works.

Adrienne Héritier, author
of *Explaining Institutional
Change in Europe*

This book gathers an
impressive sum of
cutting-edge qualitative
research providing the
big picture as well as
a critical assessment.

Amandine Crespy, author of *The
European Social Question*

Rarely have the causes and
consequences of 'functional
spill-over' been so clearly
captured and explored.

Philippe C. Schmitter, author of
*How to Democratize the European
Union—and why Bother?*

The authors offer a
nuanced assessment
of the possibilities
for resistance.

Richard Hyman, co-author of
*Towards a European System
of Industrial Relations?*
